

LECTURE PLAN – COMPUTER ARCHITECTURE

Lecture 11 of 45

Topic: Computer Instructions and Timing & Control

Unit: Unit 2

Learning Outcomes (LO)

- LO1: Define and explain the basic concepts of Computer Instructions and Timing & Control. (L1 – Remember)
- LO2: Explain the working and important features of Computer Instructions and Timing & Control. (L2 – Understand)
- LO3: Apply the concept of Computer Instructions and Timing & Control to simple examples or problems. (L3 – Apply)

Teaching Content

- Types of computer instructions
- Instruction decoding
- Timing signals and control signals

Teaching–Learning Activities

Activity	Description
Demo	Teacher explains Computer Instructions and Timing & Control using simple examples on the board/PPT.
Peer Activity	Students discuss a short example in pairs and compare their answers.
Board Problem	Students solve one basic problem based on Computer Instructions and Timing & Control with teacher guidance.

Assessment Methods

- Quiz: Check understanding of key terms and concepts.
- Assignment: Solve/write a short problem related to the lecture topic.
- Viva: Explain the main concept and one example in simple words.

Teaching Aids

- PPT with examples, whiteboard, textbook diagrams, and simple classroom examples.
